- HTML
- CSS
- JavaScript
- Bootstrap
- React JS

Backend:
- Java
- Spring Boot
- JDBC
- RESTful APIs

Database:
- MySQL
- SQL Queries

Tools:
- GitHub
- Figma
- VS Code

PROFILE SUMMARY

Enthusiastic and detail-oriented **Java Full Stack Developer (Fresher)** with hands-on experience in building responsive web applications using **HTML5, CSS, JavaScript, Bootstrap, and React JS**. Trained in backend development using **Java, Spring Boot, JDBC**, and **SQL**, with experience in **CRUD operations and REST API integration**. Passionate about developing scalable, user-friendly applications and eager to contribute to a growth-oriented organization while continuously enhancing technical skills.

PROJECTS

Portfolio Website

Technologies: HTML5, CSS3, JavaScript
- Designed and developed a **responsive personal portfolio website** to showcase projects and technical skills.
- Implemented **mobile-first design** ensuring compatibility across different devices and browsers.
- Enhanced user interaction using JavaScript and optimized performance for faster load times.
- **Link:** port-folio-one-rust.vercel.app

Final Year Project – E-Commerce Application

Technologies: .NET Core (Frontend Framework)
SQL Server (Backend)
- Built a **book-based e-commerce web application** with separate roles for **Admin and Customers.**
- Admin module included inventory management, order handling, and platform maintenance.
- Customer module enabled browsing, purchasing books, and managing orders.
- Designed and maintained a structured database to support application functionality.

Training & Certification

Java Full Stack Development – Greens Technologies

Course Coverage
- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React JS
- **Backend:** Java, Spring Boot, JDBC
- **Database:** SQL
- **Concepts:** CRUD Operation, REST API Integration
